

THE FLOORING SOLUTION FOR COMMERCIAL FACILITIES

The optimal REGUPOL
flooring for your commercial
spaces

Green from the floor up

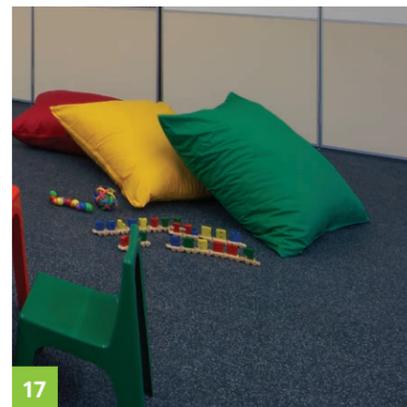

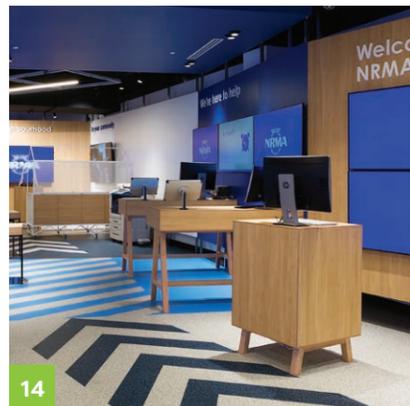

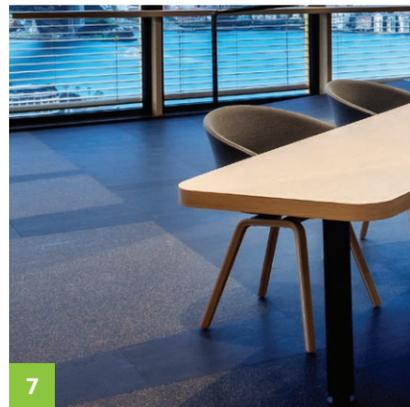

Here is a collection of flooring products that satisfies the rudimentary concerns of function and form.

Such attributes are not unexpected when you consider our German origins. At the same time, they deliver on sustainability, incorporating high quality post-consumer and pre-consumer materials. This helps open the door to green building design briefs which may be out of reach to lesser products.

So if you're looking for flooring for your commercial space, you've come to the right place because whatever you need:

We've got it covered.

THIS IS WHAT YOU CAN FIND IN THE BROCHURE

07

Applications

OUR FLOOR FOR COMMERCIAL AREAS

Inviting:

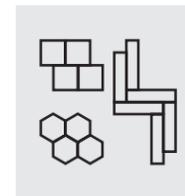

First impressions are vital for your commercial spaces. Our REGUPOL everroll floors can just as easily be installed in foyers and reception areas as in the office and walkways. They are comfortable underfoot, slip-resistant, highly robust, and long-lasting even in heavily frequented areas.

Rolls

Very hard-wearing, even in more frequented areas | great variety of design possibilities to ensure a friendly welcome | slip-resistant and easy to clean | standard or pre-sealed | standard thicknesses: 4 or 8 mm

Our products: REGUPOL everroll classic, REGUPOL everroll vitality, REGUPOL everroll ultimate

Modular tiles

Available as pre-cut modular tiles. Create your own creative space, by using different coloured squares, hexagons or planks.

Our products: REGUPOL everroll range

Our advice:

Give your customers the right impression! Lines, lettering or a logo can be applied into your floor. As per your own design and layout.

Complementing your vision

REGUPOL everroll offers distinctive product ranges, infused with fragments of colour which harmonise with other flooring systems and contemporary furnishings.

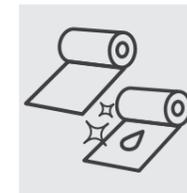

OUR FLOOR FOR **EDUCATIONAL AREAS**

Comfortable:

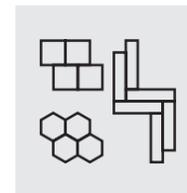

You want your students to feel comfortable and at ease in your learning areas. A calm, pleasant atmosphere puts people in a positive mood. Our REGUPOL everroll flooring is comfortable, pleasantly warm under foot, has a special feel to it and reduces impact and airborne noise in your rooms.

Rolls

Comfortable | create a pleasant atmosphere | warm under foot | standard or pre-sealed | standard thicknesses: 4 or 8 mm

OUR FLOOR FOR CHILDCARE AREAS

Protection:

REGUPOL everroll impact is a two-layered flooring system for childcare centres with high requirements of comfort and protection. The elasticity of our floor system noticeably protects little bodies, while the acoustic properties of our REGUPOL everroll impact floor also result in significant user benefits.

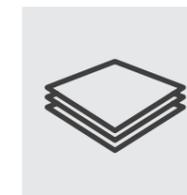

The wide range of colour variations makes this flooring a real hit. You are sure to find the perfect décor to suit your needs and taste.

Deviations from the colours shown are possible due to production batches and brochure print.

DESIGNS & ACCESSORIES

FOR REGUPOL EVERROLL FLOORS

Primers, adhesives, moisture barriers

We'll be happy to advise you, if you have any questions on adhesives, primers or moisture barriers.

Standard without sealant

Generally, our fitness floors are laid without a sealant. This has a positive effect on the slip-resistance, the overall feel and matt appearance.

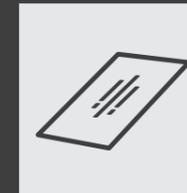

Our products: REGUPOL everroll range

Optional Pre-sealing

Our REGUPOL sealer makes the floor easier to clean, especially in those areas which are heavily frequented and trafficked.

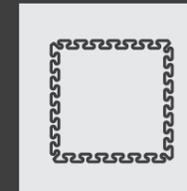

Our products: REGUPOL everroll range

Individual design

You also have the option of including logos, lines or lettering into your floor. This can be done as inlays within the floor or using full colour UV inkjet technology.

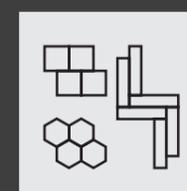

Our products: REGUPOL everroll range

Puzzle tiles

The **REGUPOL everroll ranges** are also available in puzzle tile format. The interlocking type floor can be removed and re-laid quickly and easily.

Our products: REGUPOL everroll range

Modular tiles

The **REGUPOL everroll ranges** are available as modular tiles. With square, hexagon or planks available.

HOW ARE SOLUTIONS EASY AND INSPIRING? **TOGETHER.**

We've got it covered.

REGUPOL is more than sports and multi-purpose surfaces. More than our acoustic underlayments. And more than our state-of-the-art track and field surfaces. For over 65 years, providing solutions and delivering exceptional customer service has been our business. We understand that paying attention to the details is critical from the start of any project. Making changes later means inconvenience and additional expenses. We sweat those details so you don't have to.

Because we invented the technology to recycle end of life tyres into unique products, you benefit from decades of experience and expertise that only we can offer. That means the right information, advice, and answers when you need them, along with products that have been refined, tested, and retested over the years by our R&D team to deliver precision performance that will not disappoint. It is all accomplished with manufacturing that meets the highest quality standards with the strictest environmental requirements.

Delivering results, developing leaders worldwide

We have grown steadily since 1954 – new products developed, new subsidiaries established and new locations added.

Today, **REGUPOL** is still a family enterprise, with third and fourth generations currently working in company management. We have eleven offices in seven countries, all serving as epicentres for innovation, ingenuity, and community.

Behind every **REGUPOL** product, there is a talented team that works together, across the globe, to create performance solutions from reclaimed materials that deliver durability and protection where you need it most without sacrificing sustainability. Whether used to protect surfaces and optimize load transport or to dampen sound and vibration, **REGUPOL** gets it done. We deliver with a level of product, customer service, and investment that only the inventor can offer.

No matter the customer—we aim to make their experience easy and inspiring, at an only-at-**REGUPOL** value.

Ask the experts about the best solution for your project.

HOW DO YOU BECOME MORE ENVIRONMENTALLY FRIENDLY? TOGETHER.

Caring about the environment is part of the REGUPOL core mission. When it comes to how we conduct our business and develop our products, we think long term. We ask ourselves: How will our actions today impact tomorrow's world? We strive to protect and sustain our environment every step of the way, from development and production to customer use and disposal.

On the road, tyres eventually wear down or sustain irreparable damage. But, in the environment, tyres can last forever. They are nonbiodegradable, unable to be compacted like plastic or metal, and maintain their shape. Because of their sheer size and impenetrable rubber compound, tyres are among the most problematic sources of waste we face today.

In the 1950s, polyurethane foam was new and very expensive. Instead of using all of the material produced, a considerable quantity was disposed. Our company was founded in 1954 to reprocess this wasted material into composite foam. Recycling is in our DNA.

How sustainable are REGUPOL products?

The circular economy works when recycled products compete directly with new products – we have been proving this for 65 years. REGUPOL products are typically made from 75% to 95% recycled materials, as are our sports mats. However REGUFOAM products are made from genuine raw materials.

What standards and legal requirements does REGUPOL meet?

Our company has been fully DIN EN 14001 certified since 1997 and will remain so. In addition, our products and mats comply with paragraph § 45 II No. 2 of the German draft bill on recycling management. We hope that the clearly formulated regulation will help make government action more sustainable.

What is sustainable about our human resources policy?

All our staff in Germany are paid according to a chemical industry-wide collective agreement. We are a recognised provider of insulation solutions and attach particular importance on training, which is why a large number of trainees undergo their training in-house.

New Life: From the disposing to a recycling economy

REGUPOL is a founding member of the "Initiative NEW LIFE" and commits to an optimal recycling economy, together with the other member corporations. Jointly, the members want to point out the advantages of recycling products from ELT (End-of-Life-Tires) and motivate to act sustainably. More about the initiative: www.initiative-new-life.de

What is next?

We still have a lot to do. We look forward to the continued development to our take-back policies for our products and reprocessing them. This will significantly extend the useful life of our products and consume far fewer natural resources. Accompany us.

REGUPOL's CO₂ balance sheet

In 2016, we partnered with the NRW Efficiency Agency to create a CO₂ location balance sheet, showing our total greenhouse gas emissions as CO₂ equivalents. We are on the right track.

HOW DO YOU GET TO THE TOP? **TOGETHER.**

When you partner with REGUPOL, you become part of a community with a shared goal of leading with excellence and innovation. Our path to success has always been rooted in product innovation and great service, with an eye on the future. We transform over 90,000 tons of high-quality recycled materials every year to create products that meet and exceed industry standards.

Over the course of our 65-year journey to become a leader in our category of building materials, we have built up a wealth of expertise and forged long-term customer partnerships in 132 countries worldwide—like sprint legend Usain Bolt, who made history on our blue **REGUPOL** running track in Berlin's Olympic Stadium in 2009 when he set two world records.

"There's nothing like running on REGUPOL. To me, REGUPOL equals gold. In more ways than one." - Usain Bolt
