DIAMOND 10™ Homogeneous Vinyl Sheet

MEDINTONE™

The soft palette of this homogeneous vinyl sheet flooring is highly suited to medical environments and is designed to perform in sterile and aseptic areas. With the combination of Medintone's homogeneous construction, engineered slip resistance and unique Diamond 10™ technology*, (*featuring industrial diamonds infused within the surface), Medintone is the perfect solution for your high-traffic areas where cleanliness, durability and low maintenance are the focus.

Tough as Diamond

- Unique formulation with industrial diamond infused surface
- Market leading scratch, stain and scuff resistance

Easy to Maintain

- Outstanding resistance to soiling and staining for ease of maintenance
- Enhanced appearance retention
- No polish or burnishing required

Slip Resistance

- Engineered for Australia, Diamond 10™ coating provides enhanced slip resistance to achieve P3 and R10 Ratings

Chemical Resistance

- Next Generation Chemical Resistance
- Formulated to minimise risk of staining from medical agents and resist damage from strong acid/alkali's

High Performance

- Industrial Heavy rating (Class 43 heavy duty)
- Wear Resistance – Group T
- Binder Content – Type 1
- Market leading coating thickness
- Anti-Static properties

Problem-free Installation

ColourArt™ Medintone™ vinyl sheet flooring installs quickly with no special tools or techniques required and is easy to heat weld and flash cove for spaces that demand a seamless surface for infection control.

As a finishing touch, Armstrong Flooring offers a selection of solid and patterned weld rod colours to coordinate or contrast with the floor to fulfill your design intent. Patterned weld rods are colour matched to our flooring selections and add design dimension to any installation.
