

Jacobsen®

A close-up photograph of a wooden stair nosing. The wood has a rich, warm brown tone and a prominent, wavy grain pattern. A thin, polished metal strip is attached to the edge of the wood, running diagonally across the frame. The lighting is soft, highlighting the texture of the wood and the sheen of the metal.

Bespoke
Stair Nosing

JACOBSEN HAS PARTNERED WITH BESPOKE TIMBER TO MANUFACTURE STAIR NOSINGS AND ACCESSORIES OUT OF THE SAME FLOORING THAT IS BEING USED IN YOUR PROJECT TO PROVIDE A SEAMLESS LOOK AND SOPHISTICATED FINISH. MANUFACTURED USING SUPPLIED TIMBERTOP, LAMINATE OR LVT RANGES FROM JACOBSEN.

Why choose Bespoke stair nosing?

IN-HOUSE NZ MANUFACTURING

Complete control over quality, profile and finish — right here in Auckland. Create coherence and effortless style by using the same materials and colours, giving your space a roomier, airier feel that isn't disjointed by mismatched woods.

UNRIVALLED DESIGN FLEXIBILITY

Nine profile styles across four material types, all tailored to your project. Select the perfect shape for your staircase.

Choose from a range of standard and custom stair nosing profiles, including bullnose, square edge, flush mount and more. Each profile is designed for both style and safety, adapting to your flooring type and layout.

5-YEAR STRUCTURAL WARRANTY

Peace of mind from sub-structure to surface.

With a range of options to choose from that can be customised to the dimensions you require, Jacobsen and Bespoke Timber bring a wealth of experience to assist you in finding the perfect solution.

Engineered Timber stair nosing

Bespoke Engineered Timber stair nosings are manufactured from high-quality engineered timber, ensuring strength, stability and a perfect match with your flooring. Designed to fit a wide range of stair styles, each profile is custom-made to your exact specifications – providing a seamless finish, refined detailing and long-lasting durability. Whether you're completing a modern staircase or adding the final touch to a renovation project, our engineered nosings deliver both style and function.

Standard stair nosing

A clean, classic profile – made to fit your stairs perfectly. This is one of our most commonly requested stair nosing styles, featuring a crisp 90-degree angle for a sharp, modern look. We add a fine aris to the top and bottom edges for a refined, finished feel.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm		Tongue or Groove on the Top Face	
Front Face Dimension (B) – mm			
Qty and lengths of nosings required			

Return stair nosing

A clean finish, even from underneath. The perfect solution for open or exposed staircases, return nosings provide a seamless finish when the underside of the tread is visible – ideal for floating or large stair flights.

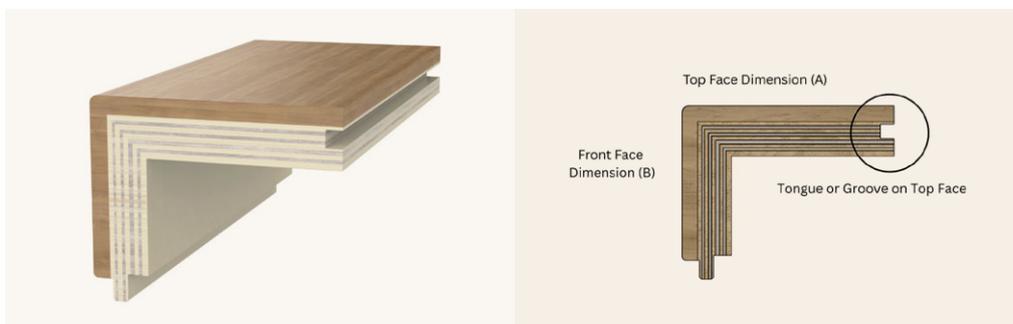

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm		Return Face Dimension (C) - mm	
Front Face Dimension (B) – mm	Tongue or Groove on the Top Face		
Qty and lengths of nosings required			

Waterfall stair nosing

Seamless style with a sleek, modern edge. The waterfall nosing delivers a clean, continuous flow as the timber wraps down the front of each step – perfect for achieving that sharp, contemporary look.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm		Tongue or Groove on the Top Face	
Front Face Dimension (B) – mm			
Qty and lengths of nosings required			

Rakeback stair nosing

Precision-made for commercial-grade performance. Rakeback stairs are a common feature in commercial projects. Just provide us with the required dimensions and we'll take care of the rest.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) - mm		Internal Angle (D) - degrees	
Front Face Dimension (B) - mm		Tongue or Groove on the Top Face	
Qty and lengths of nosings required			

Rakeback Waterfall stair nosing

The Rakeback Waterfall combines the clean, modern lines of a waterfall nosing with the angled practicality of a rakeback profile – making it ideal for commercial staircases where both visibility and safety matter.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) - mm		Internal Angle (D) - degrees	
Front Face Dimension (B) - mm		Tongue or Groove on the Top Face	
Qty and lengths of nosings required			

Edge cap

Often used around open balustrades or transitions between flooring levels, the Edge Cap neatly conceals the exposed edge of engineered timber while defining a clean boundary between spaces. This profile delivers both function and finesse.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) - mm		Tongue or Groove on the Top Face	
Qty and lengths of nosings required			

Laminate stair nosing

Our Laminate stair nosings and accessories are specially designed to complement laminate flooring with precision and durability. Each profile is crafted to provide a seamless transition between steps and floors, delivering a clean, modern look while ensuring safety and edge protection. Choose from a variety of styles and finishes to suit your interior – practical, stylish and easy to install.

Standard stair nosing

A clean, classic profile — made to fit your stairs perfectly. This is one of our most commonly requested stair nosing styles, featuring a crisp 90-degree angle for a sharp, modern look. We add a fine aris to the top and bottom edges for a refined, finished feel.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) - mm		Tongue or Groove on the Top Face	
Front Face Dimension (B) - mm			
Qty and lengths of nosings required			

Return stair nosing

A clean finish, even from underneath. The perfect solution for open or exposed staircases, return nosings provide a seamless finish when the underside of the tread is visible — ideal for floating or large stair flights.

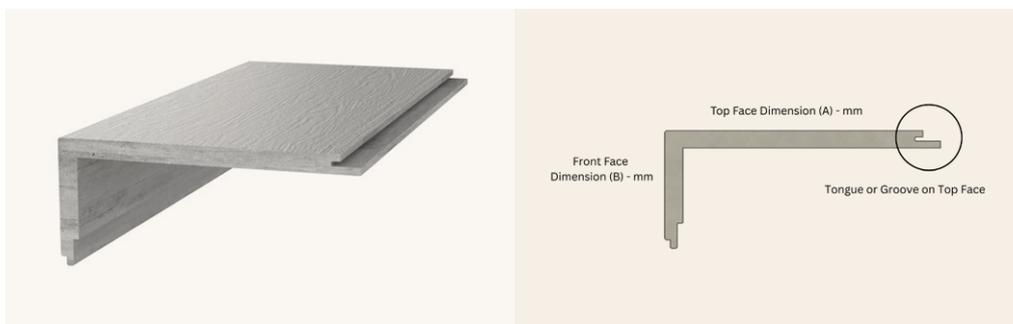

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) - mm		Return Face Dimension (C) - mm	
Front Face Dimension (B) - mm	Tongue or Groove on the Top Face		
Qty and lengths of nosings required			

Waterfall stair nosing

Ideal for commercial staircases where both visibility and safety matter. This design allows for a continuous timber grain flow down the tread while accommodating rakeback stair construction. It delivers a sleek, architectural finish without compromising on fit or function.

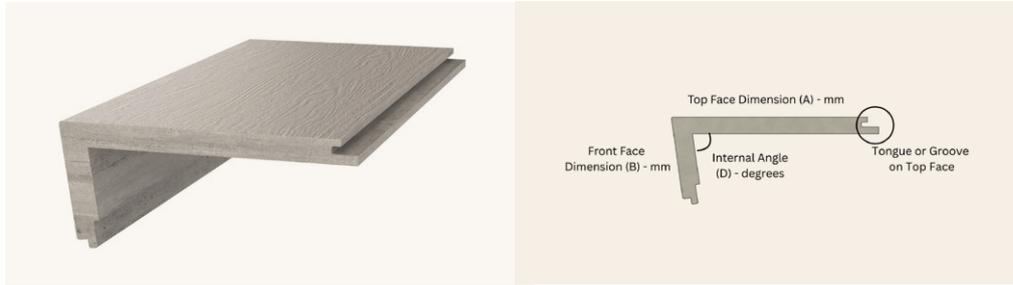

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) - mm		Tongue or Groove on the Top Face	
Front Face Dimension (B) - mm			
Qty and lengths of nosings required			

Rakeback Waterfall stair nosing

The Rakeback Waterfall combines the clean, modern lines of a waterfall nosing with the angled practicality of a rakeback profile – making it ideal for commercial staircases where both visibility and safety matter.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm		Internal Angle (D) – degrees	
Front Face Dimension (B) – mm		Tongue or Groove on the Top Face	
Qty and lengths of nosings required			

Single Sided Expansion

Similar in appearance to our Edge Cap, this profile is rebated on one side to allow for movement – making it the ideal choice when finishing edges on floating floor installations. Perfect for open edges, balustrades and level transitions where flexibility is key.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm	
Qty and lengths of nosings required	

Double Sided Expansion

Featuring a rebate on both edges for situations where expansion is required on both sides – such as between two floating floors. Commonly used as a doorway trim or between rooms, allowing each floor section to move independently while maintaining a neat, low-profile finish.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm	
Qty and lengths of nosings required	

A modern interior scene featuring a patterned armchair with a geometric design in shades of brown, grey, and white. The chair is positioned next to a tall, slender floor lamp with a white conical shade and a brass base. To the left, there is a long, low wooden bench with a light-colored stone top. The background consists of a textured, grey concrete wall. To the right, a window looks out onto a garden with tall bamboo plants. The floor is made of dark wood-look LVT planks.

Rigid Core LVT stair nosing

Our Rigid Core LVT stair nosings are engineered for strength, stability and seamless design. Built to match rigid core flooring, these profiles offer a clean finish and enhanced safety for stairs. Whether you're working with high-traffic areas or floating installations, our stair nosings deliver reliable performance and a cohesive look across your space.

Return stair nosing

Return nosings provide a seamless finish when the underside of the tread is visible – ideal for floating or large stair flights. They also make a great alternative to a bullnose, offering a modern, squared-off look with all the elegance of a refined edge.

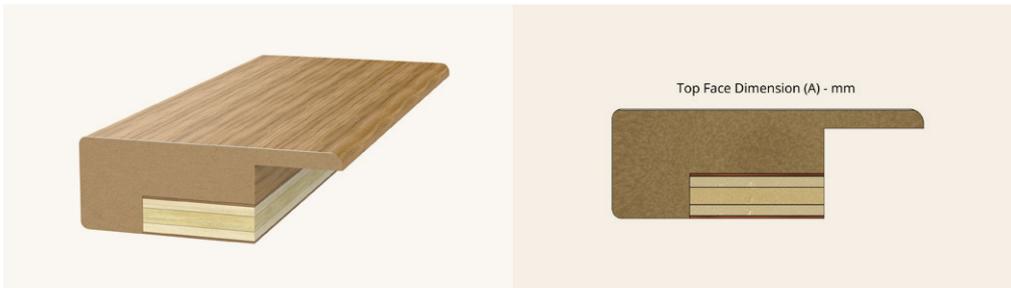

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm		Return Face Dimension (C) – mm	
Front Face Dimension (B) – mm		Tongue or Groove on Top Face	
Qty and lengths of nosings required			

Single Sided Expansion

Gluedown LVT stair nosing

Designed to complement gluedown LVT floors, our stair nosings provide a clean, continuous finish on every step. They're engineered for durability and stability, helping improve safety on stairs without compromising on design.

*Return
stair nosing*

Return nosings returns the nosing up the riser for a neat, finished edge – ideal where walls or stringers meet the tread.

ORDER INFORMATION REQUIRED:

Top Face Dimension (A) – mm		Return Face Dimension (C) - mm	
Front Face Dimension (B) – mm			
Qty and lengths of nosings required			

Order your stair nosing in 4 simple steps

Completing your home comes down to the little details. Timber and timber-look stair nosings and transitions that match your flooring gives your property a finishing touch that enhances the overall aesthetic.

1 Choose the profile that best suits your project

THE FINER DETAILS

- Each stair nosing is manufactured out of a single board so that the timber grain wraps seamlessly around the step, giving the look of a solid timber tread
- Board selection is important. If you are unsure, send additional material, we will select the best boards and return any unused planks
- Always order nosings 100 mm oversized so they can be trimmed on-site to fit perfectly
- We will aris, colour match and seal the top edge for a flawless finish
- Bottom edge (if applicable is colour-matched)

WANT TO ADD AN INSERT FOR A REFINED LOOK?

We can add inserts into all of our profiles, get in touch to tell us what you are looking for and we will provide the perfect option.
