Authorised Signatory:

.....
Full Name in Block Letters

.....
Signature

.....
Requested Delivery/Pickup Date

(To be confirmed by JCS)

*) Only use 200P-G with drilled starter bars, not recommended where waterproofing is critical. Otherwise, use 155P-TC by snapping it in half to create 2 angles as a guide track.

** NZ STOCK

1) Two notches on the above accessory diagrams indicate the panel has pre-drilled holes
