24 COLOURS AVAILABLE

OMNISPORTS ACTIVE+ Vinyl Sports flooring

Omnisports Active+ (8.1mm) offers a **high level of performance and comfort** for multi-sport practice. It is classified **P2** according to EN 14904 with a **shock absorption of more than 35%**.

This collection benefits from our brand's **exclusive X3LT – Extreme 3 Layers Technology**, a **winning combination** of our **best features for unrivaled sports experience**.

The **XCS high-quality expanded cellular cushion** combined with our **durable resilient calendared layer** and **extremely tough fiberglass veil** provides **improved sports performance** and a **higher resistance to rolling and static loads** than competitor systems.

Omnisports Active+ comes with our **trade marketed Top Clean XP™** surface treatment, for increased durability and cost effective maintenance.

Installation options include our **GreenLay™ exclusive method**, with **only 2% of the surface glued: convenient, fast & sustainable**.

Omnisports Active+ is **100% recyclable** and clean waste from installation can be collected, recycled and reintroduced into vinyl flooring production through the **Tarkett ReStart®** program.

Omnisports Active+ is **100% phthalate-free**, **100% biocide-free**, with **extremely low VOC emissions rate <10µg/m³** to preserve athletes' health and well-being.

It comes with a **15-year warranty**.

RECOMMENDED APPLICATIONS

Multi-sports team: volley-ball, handball, badminton, basketball, futsal...
And individual: tai chi, gymnastics, etc.
