

Sustainability Data Sheet

Range name	Korlok
Product description	Inherently impermeable and easy to clean due to its PVC construction. A premium decorative floor finish for use in heavy duty residential and commercial areas. A heterogeneous (multi-layered), rigid core, resilient luxury vinyl (LVT) floor covering product, designed to be installed as floating floor.
LVT Format	5G® Rigid core EPC
Type	Wood-look planks Stone-look tiles
Thickness	6.5mm
Wear layer	0.55mm Features a variety of moderate surface embosses to aid in aesthetics, slip resistance and ease of cleaning.
Slip ratings	R10/P2-P3

Manufacturing

Independent factory audits		We commission third-party audits of all our factories for both environmental and social performance, which includes working conditions, hours worked, and workplace health and safety.
Manufacturing factory location		Guangdong Province, China
Primary raw source materials		Plasticizer (3.86%), PVC (40.40%), Calcium Carbonate (48.10%) Ortho-phthalate free
Embodied carbon intensity of the product provided per m² (A1-A3)		12.34 Kg CO ₂ eq per m ² with 0 kg CO ₂ eq offset
Recycled water used		Our manufacturing partners operate closed-loop water systems, with some facilities using 100% recycled water for industrial processes, significantly reducing reliance on potable water.
Post-industrial recycled content		Up to 50% in the backing layer
ISO14001 certified factory (which provides a framework for measuring and reducing environmental impact, from facility water usage to eco-friendly product packaging)		Yes - An internationally agreed standard that defines requirements for systems to manage, monitor and control our use of resource and waste.
ISO9001 certified factory (for product-quality management)		Yes - An internationally recognised standard for quality management systems, helping ensure consistent product quality and continual improvement.
Supply Chain Transparency		Karndean Global, along with our factory suppliers, are members of Sedex. We use the Sedex framework to assess and improve their sustainability performance. We use independent auditors, Eurofins, and the 4 pillar Sedex framework to review the suppliers on their social performance, environmental performance, business ethics, and labour conditions. Full audit results are made available to customers who are also Sedex members.

Installation & in use certifications

Stock location	Melbourne, Australia		
Adhesives	Not applicable		
Packaging:			
Primary Packaging	Cardboard, 100% recyclable		Environmental Product Declaration (EPD)  <p>Cradle to Gate (A1-A3) based on LCA. This product is covered by a third-party, SCS Global, verified Environmental Product Declaration (EPD), specific to this product range. Our EPDs provide transparent, independently verified data that reflects the actual manufacturing, transport, and material inputs relevant to the Australian market.</p>
Tertiary Packaging	Wood pallets, plastic wrapping and banding		
Crystalline Silica (Quartz) Content (wt%)	Not detected		
PVC Stewardship	 Silver		Volatile organic compounds (VOC)  <p>A+</p>
Floorscore certified	 Yes - awarded low indoor air emissions of Volatile Organic Compounds (VOCs) <small>CERTIFIED BY SCS Global Services</small>		GreenTag™ LCARate  <p>Silver Plus</p>
Indoor air comfort	 Eurofins Indoor Air Comfort Gold: Awarded to products with low VOC emissions		

End of life and performance data

Warranty		Commercial - 15 years Domestic - 35 years Is warranted to exceed AU building code durability requirements (5 years) when installed in areas appropriate to its ISO 10582 classification assessment.
Recyclable		Unused installation offcuts are eligible for recycling through the ResiLoop take-back scheme, with a national collection system now in place. This product is designed to minimise on-site waste during installation by maximising material efficiency and reducing offcuts.
Reusable		Yes
Fire Test Certificate		Available via the Downloads section on our website
Environment Product Declaration (EPD)		Click here
